## **[2] Energy and Climate Change (EC)**

As part of the University's activities to raise awareness of students and staff about environmental issues, events dedicated to the topic of climate change were held.

The purpose of the events is to increase the level of knowledge and understanding of the problem of climate change among students and staff of the university.

The events included:

Lectures from experts in the field of ecology and climate change;

Seminars and discussions on the causes, consequences and possible solutions to the problem of climate change;

Watching documentaries and videos demonstrating the impact of climate change on the environment and people's lives;

An exhibition of scientific publications and materials on climate change in the University library.

As a result of the events, students and university staff gained a deeper understanding of the problem of climate change, its causes and consequences, as well as possible ways to solve this global problem.

**[2.14] Impactful university program(s) on climate change**

1	<p>Uzbekistan State University of world languages by the Department of Natural Sciences, Faculty of International translation.</p> <p>”Global environmental problems, desertification</p>	<p>International</p>	<p>27 Teachers</p> <p>200 Students</p>	  	<p><a href="https://t.me/UzSWLU/2034">https://t.me/UzSWLU/2034</a></p>	<p>The event addressed topical issues of global environmental problems, desertification and food security. The conference participants discussed the causes and consequences of these phenomena, as well as possible ways to solve them.</p> <p>The conference was attended by leading scientists and experts in the field of ecology, agriculture and international relations. They presented their research and development aimed at combating desertification and</p>

						<p>The conference was an important step in promoting scientific research and practical solutions in the field of global environmental problems and ensuring food security for the whole world.</p>
2	<p>Scientific and practical conference on the topic” Ecology and environmental problems in education today “ held on a Republican scale</p>	National	<p>18 Teachers 200 Students</p>	 	<p><a href="https://t.me/UszSWLU/18480">https://t.me/UszSWLU/18480</a></p>	<p>The seminar addressed topical issues of ecology and environmental problems in the modern educational process. The participants discussed the role of environmental education in the formation of environmental culture, as well as methods and approaches to teaching ecology in schools and universities.</p> <p>The seminar was attended by leading experts in the field of ecology,</p>

						pedagogy and psychology. They presented their research and development aimed at improving the effectiveness of environmental education and the formation of a responsible attitude towards the environment among young people.
3	<p>International Plant Health Day.</p> <p>"Planting trees" action</p>	Local	<p>15 Teachers</p> <p>145 Students</p>		<a href="https://t.me/frp_uzswlu/8127">https://t.me/frp_uzswlu/8127</a>	<p>By the decision of the UN General Assembly, International Plant Health Day is celebrated on May 12. In this regard, the dean of the Faculty of Russian Philology A.B. Rakhmonov, deputy deans V.A. Lyamkina, H.I. Akhmedov, A.N.Dadakhanov, tutors, and students held a joint action "Planting trees" on the faculty's territory.</p>

				 A photograph showing a man in a light blue shirt and dark trousers, bent over and using a shovel to plant a seedling in a hole in the ground. Another person's hand is visible on the left, holding the seedling. The background shows a fence and some greenery.	<p>During the event, the participants of the action joined nature, planted seedlings, and saw the result of their work with their own hands.</p> <p>The staff and students of the Faculty of Russian Philology of UzSWLU were engaged in the selection of plants and the development of their planting scheme. The territory of the faculty was replenished with seedlings of various species that have proven themselves well in the climate of Uzbekistan.</p>

						Interesting conditions and melodies from each other gave the participants of the program a high mood. At the end, the winners were awarded certificates and souvenirs.
5	Action "Clean Bank of Bashkizilsai"	Regional	35 Teachers 240 Students	 	<a href="https://t.me/frp_uzswlu/8145">https://t.me/frp_uzswlu/8145</a>	Action "Clean Coast of Bashkizilsai" Within the framework of the implementation of the UN Sustainable Development Goals, on 23 May 2024, teachers of the Faculty of Russian Philology of UzSWLU together with students held an action "Clean Bank of Bashkizilsai", visiting the mountain river Bashkizilsai, which is located in Parkent district of Tashkent region. The river is part of the Chatkal Nature Reserve.

					<p>Because of the clean air, and favorable environment, there are a lot of tourists here. But having rested, many of them break simple rules, i.e. leave rubbish after themselves.</p> <p>During the action, the teachers of the faculty of Russian philology together with the students cleaned the rubbish on the river bank and cleared the 5 km long area.</p> <p>Observe the rules of behavior in nature and always clean up litter after yourself! To fight litter it is enough not to litter!</p>
