[5] Transportation (TR)

[5.18] Planning, implementation, monitoring and/or evaluation of all programs related to Transportation through the utilization of Information and Communication Technology (ICT)

Stage	Activities/Programs	ICT Utilization	Evidence	Timeline	Responsible Team/Department
Planning	Assess transportation needs, plan shuttle routes	Transport planning software	Needs assessment reports, route plans	Jan 2024 - Feb 2024	Transportation Office, ICT Dept
Implementation	Deploy shuttle services, launch mobile app	GPS tracking, shuttle scheduling app	Service launch reports, app usage data	Mar 2024 - Apr 2024	Transportation Office, ICT Dept
Monitoring	Track shuttle usage, optimize routes	Real-time tracking software	Usage analytics, optimization reports	Ongoing	Transportation Office, ICT Dept
Evaluation	Evaluate shuttle service efficiency	Data analysis tools, user feedback surveys	Efficiency reports, survey results	Annually	Transportation Office, ICT Dept

ATTO is an electronic payment card and mobile app system designed for public transportation in Uzbekistan. It allows cashless payments on buses, the metro, and other forms of public transport.

Key Features:

- **Card**: The ATTO card can be purchased and used for payments by tapping it on the card readers in

transport vehicles. It can be bought and recharged at various locations.

- **Mobile App**: Through the ATTO mobile app, users can check their card balance, view transport schedules, and recharge the card online.
- **Ease of Use**: Payments are made quickly and conveniently by tapping the card or using the app, reducing the inconvenience of handling cash.

Importance for Students:

ATTO is especially beneficial for students as it simplifies daily commutes, making it easier to travel between home and university without worrying about carrying cash. The ability to check schedules and recharge the card online also helps them manage their time and expenses more efficiently.

YO-TO is a mobile app for renting electric scooters in Uzbekistan. It allows users to move around the city quickly and conveniently.

Key Features:

- **App Usage**: Users can download the YO-TO app to find and rent nearby available scooters.
- **Payment System**: Payments are made through the app, with the trip cost depending on the duration and distance.
- **Eco-Friendly**: Electric scooters are environmentally friendly, providing a green transportation option for urban mobility.

Importance for Students:

YO-TO is particularly useful for students, offering an affordable and quick way to travel between university campuses and other locations. It helps them save time in traffic and manage transportation costs efficiently.

Qwatt is a bicycle rental service in Uzbekistan, offering a healthy and eco-friendly mode of transportation for users to explore the city.

Key Features:

- **App Usage**: Users can download the Qwatt app to locate and rent nearby available bicycles.
- **Payment System**: Payments are made through the app, with pricing

	based on the duration and distance of the trip.
	• **Eco-Friendly**: Bicycles help reduce the carbon footprint of transportation and provide a healthy mobility option for city residents.
	Importance for Students:
	Qwatt is particularly beneficial for students, offering an affordable and convenient way to commute between university and other destinations. Riding a bicycle also encourages a healthier lifestyle for students.

Description:

YO-TO, **ATTO**, and **Qwatt** are modern transport solutions in Uzbekistan designed to make urban travel more convenient, especially for students. These apps offer efficient ways to use public transportation, electric scooters, and bicycles, providing flexibility and ease in daily commutes.

- **ATTO** is an electronic payment card and app for public transportation, allowing cashless payments on buses and the metro through a simple tap. It's particularly useful for students, helping them manage their travel time and expenses more efficiently.
- **YO-TO** provides rental services for electric scooters, making it ideal for quick trips around the city. Students can use this service to avoid traffic and save time when traveling to classes or other destinations.
- **Qwatt** offers a rental service for eco-friendly bicycles, promoting a healthy lifestyle while providing an affordable mode of transport. It's a great option for students to reach universities and other places quickly and cost-effectively.

Benefits for Students:

These apps provide modern, budget-friendly transportation options that cater to the needs of students in Uzbekistan. By reducing the need for cash transactions and offering quick, healthy travel alternatives, they make student life easier and more efficient.
