### [1] Setting and Infrastructure (SI)

The university's energy resources are supported by solar panels installed in each roof of the buildings.

### Description:

Ecology plays an important role in the life of the university. The university has many qualified specialists and personnel who maintain the cleanliness of the territory. Separate waste collection bins help prevent non-degradable waste from ending up in nature. Installed solar panels provide not only electricity but also make a huge contribution to nature conservation. By sorting waste, people save nature.
