

## REPORT ON THE COMMITMENT OF UZBEKISTAN STATE WORLD LANGUAGES UNIVERSITY TO MEANINGFUL EDUCATION IN THE FIELD OF SDGs

Uzbekistan State World Languages University actively implements its commitment to providing quality education aligned with the Sustainable Development Goals (SDGs). This aspiration is manifested through targeted programs integrated into all aspects of the educational process, reflecting relevance and applicability in the context of the specific needs of all students. The university aims to create an educational environment that fosters the acquisition of knowledge that not only meets modern challenges but also inspires students to develop skills and perspectives aligned with the global Sustainable Development Goals.

### Justification:

Uzbekistan State World Languages University attaches great importance to education within the framework of the Sustainable Development Goals, believing that it plays a key role in preparing students to address large-scale global problems and shape a sustainable future. To achieve this goal, the university strives to integrate education in the field of sustainable development into every aspect of its activities. This covers not only curricula but also research, extracurricular activities, and cooperation with other organizations. Such a comprehensive approach aims to implement modern principles and methods, ensuring that students have the understanding and skills necessary to participate in the development of sustainable solutions on a global scale.

As part of its commitment to meaningful education in the field of SDGs, the university implements the following initiatives:

1. **Integration of SDG issues into curricula.** The university has implemented a number of educational programs specifically dedicated to the Sustainable Development Goals. Moreover, the issues of the SDGs are integrated into the curricula across all other disciplines.
2. **Conducting research in the field of SDGs.** The university supports research on the Sustainable Development Goals conducted by its faculty and students. The results of this research are used to raise public awareness of the SDGs and to develop solutions to achieve them.
3. **Organization of extracurricular activities related to the 17 Sustainable Development Goals.** The university organizes various extracurricular activities dedicated to the SDGs. These activities include conferences, seminars, trainings, and volunteer programs.
4. **Cooperation with other organizations on the Sustainable Development Goals.** The university collaborates with other organizations working in the field

of the Sustainable Development Goals. This collaboration aims at knowledge and experience exchange, as well as the implementation of joint projects.

Uzbekistan State World Languages University actively promotes the integration of education within the framework of the Sustainable Development Goals in all areas of its activities. The university aims to ensure broad access for all students to education in the field of sustainable development, regardless of their specialization or chosen field of study. This commitment implies creating an educational environment where the concepts of sustainable development are integrated into the curricula of various specializations, ensuring the accessibility of relevant knowledge and skills for all students, regardless of their professional interests.
