1.20 – Security and Safety Facilities

The **Uzbekistan State World Languages University (UzSWLU)** maintains a comprehensive, multi-layered, and fully operational **security and safety management system** to protect more than **17,000 students, 1,600 academic and administrative staff**, and hundreds of daily visitors across all campuses. This system is designed in accordance with international safety standards and local emergency regulations to ensure a secure, responsive, and resilient university environment.

It encompasses preventive, monitoring, and emergency-response mechanisms, combining human vigilance and smart digital technologies. All academic, administrative, and residential buildings are equipped with modern **CCTV systems, fire alarms, emergency exits, first-aid stations, and trained security personnel** who operate in 24-hour rotational shifts, ensuring constant supervision and rapid reaction to any incidents.

Security Infrastructure

- **CCTV coverage:** 412 high-definition cameras installed across all campuses, ensuring 100% monitoring of entrances, corridors, parking areas, and open spaces.
- **Central Monitoring Center:** Located at the Main Campus, operated by the IT and Safety Departments for real-time supervision and recording.
- **Security personnel:** 30 trained guards (including 8 female officers) work in three shifts under the Department of Campus Safety.
- **Campus Police Branch:** A local **Department of Internal Affairs (MIA) branch** operates within UzSWLU, employing **three male and two female police officers**. They provide on-site protection, manage emergencies, and ensure public safety during all university events.
- **Access control:** Electronic ID-based gate system and visitor registration protocol implemented at all main entrances.
- **Emergency communication:** Direct connection between security posts, rectorate, and local emergency services (police, fire, ambulance).

Safety Infrastructure

- **Fire alarm and suppression systems:** Installed in all 42 buildings and connected to local fire and emergency departments.
- **Emergency exits:** Marked with illuminated photoluminescent signs; accessible from every point within 30 meters.
- **First-aid facilities:** 21 medical stations and first-aid cabinets maintained by the Health and Safety Unit.
- **Campus lighting:** 178 LED streetlights and 52 solar-powered lamps ensure safe nighttime mobility.
- **Evacuation plan:** “Emergency Preparedness and Evacuation Procedure” approved in 2024 and updated in 2025.

Training and Preparedness

- Annual **fire evacuation drills** and **first-aid training** sessions are organized for students, teachers, and administrative staff.
- Collaboration with the **Ministry of Emergency Situations** and the **Uchtepa District Fire Department** for regular safety inspections and simulations.

- Safety briefings are mandatory for all new employees and first-year students.
- Safety maps, posters, and QR-coded evacuation instructions are displayed in all buildings.

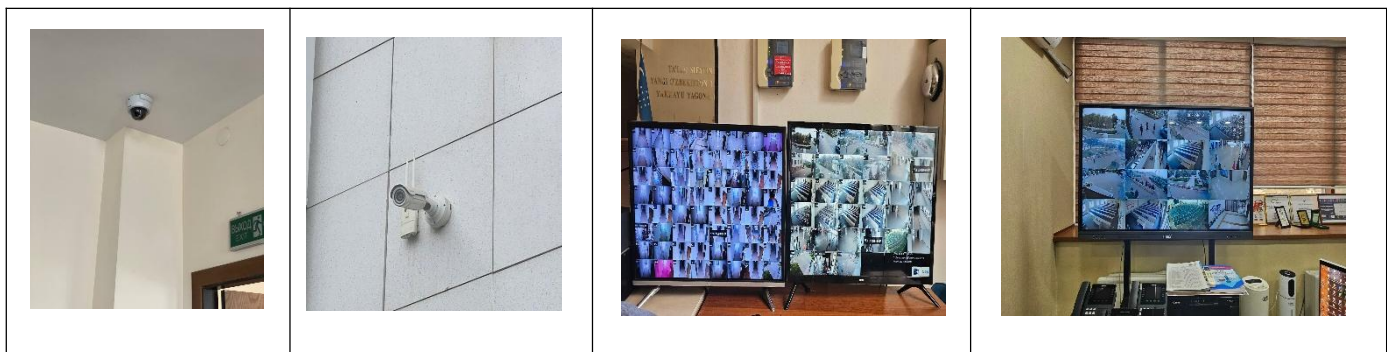

Digital and Preventive Systems

- CCTV system integrated with the **SmartSafety digital alert platform** for rapid emergency notification.
- **Motion and smoke sensors** installed in laboratories, libraries, and IT centers.
- 24/7 student emergency hotline: **(71) 230-21-07**.
- Automatic incident notification system linked to the MIA branch and emergency services.

Sustainability and Safety Integration

- Use of **solar-powered lamps** and **energy-efficient monitoring devices** reduces campus power consumption by 14%.
- Safe pedestrian and cycling routes equipped with **eco-lighting** and emergency call posts.
- Safety awareness is included in the “**Barqaror Til, Barqaror Dunyo (Sustainable Language, Sustainable World)**” sustainability education program.
