REVIEW

on the updated qualification requirements and curriculum for the training level and mandatory knowledge content of highly educated masters in the 60310200 - International Relations education direction developed at Tashkent State University of Oriental Studies

The implementation of the Law of the Republic of Uzbekistan "On Education", radical reform of educational content, ensuring the compliance of the quality of trained personnel with the requirements of deep economic and social reforms carried out in the republic, as well as with the advanced world level of development of education, science, engineering, and technologies directly depend on the content of qualification requirements.

The qualification requirements and curriculum of the 60310200 - International Relations education direction have been developed in accordance with the Law of the Republic of Uzbekistan "On Education", Resolution of the President of the Republic of Uzbekistan No. PP-3775 dated June 5, 2018 "On additional measures to improve the quality of education in higher education institutions and ensure their active participation in the comprehensive reforms carried out in the country", Order No. 259 of the MHESIR of the Republic of Uzbekistan dated June 9, 2023 "On improving the process of developing regulatory-methodological documents of higher education", Order No. 168 of the MHESIR of the Republic of Uzbekistan dated May 20, 2024 "On introducing amendments and additions to the State Standard of the Republic of Uzbekistan 'Oʻz DSt 3557:2021 State education standard of higher education. Classifier of education directions and specialities of higher education'", other regulatory-legal documents regulating the higher education sphere, and foreign experience.

The curriculum of the education direction is formed on the basis of the credit-module system and, in accordance with the requirements set for professional competences, is designed with a content that ensures that students master mandatory and elective subjects, pass internships, and as a result acquire the necessary knowledge, skills, and qualification competences in their professional activity, also taking into account that they acquire the knowledge and skills necessary for conducting scientific-pedagogical activities in the future.

The updated qualification requirements and curriculum drawn up for the 60310200 - International Relations education direction are harmonized based on foreign experience. Special attention is paid to ensuring the formation of deep knowledge, independent thinking, and high professional qualification in learners. The processes of masters mastering disciplines correctly indicate having experience, skills, and conceptual understanding, knowing the established requirements, and being able to use them effectively.

Page 11

Education Direction: 60310200 - International Relations Bachelor's Degree

In the qualification requirements and curriculum, ample space is given to modern methods and technologies, seminar classes, independent learning, and analysis of obtained information in studying relevant problems facing science and technology and searching for their positive solutions.

In developing the qualification requirements, the principles of democratization and humanization of education, preservation of uniqueness under globalization conditions, and integration into the world educational space were followed. The composition of subjects across blocks in the qualification requirements and their mutual proportions were revised from the perspective of strengthening the graduates' ability to apply the obtained theoretical knowledge in practice within their chosen specialty. The distribution of the time budget allocated for subjects into theoretical, practical, laboratory, and independent work is aimed at consolidating the graduate's theoretical knowledge and forming the skill to successfully apply them in practice.

In developing the qualification requirements and curriculum, the requirements and proposals of related higher education institutions were taken into account.

In conclusion, the updated qualification requirements and curriculum compiled for training bachelors in the 60310200 - International Relations education direction are aimed at bringing the educational process of higher education to the level of world standards. It encompasses issues related to training thoroughly mature specialists, is qualitatively structured, satisfies the requirements of the rules of the state standardization system of the Republic of Uzbekistan, and I propose its approval.
