[1.4] Campus Setting

This indicator asks the university to characterize the general urban/geographic setting of its campus sites, selecting one of five options: Rural, Suburban, Urban, City Center, or High-Rise Building Area. UzSWLU's main academic sites (Main Campus, Zakovat, Lutfiy, and Muqimiy) are located within Tashkent City, the capital of Uzbekistan, in established residential and institutional districts (including Chilanزار District) characterized by mixed low- and mid-rise development, arterial roads, and surrounding residential neighborhoods — consistent with an “urban” setting rather than a dense city-center high-rise district. The Angren Campus is located in Angren City, a smaller regional city in Tashkent Region, also best described as urban/suburban in character relative to its local context.

Assessment by Campus

Campus	Setting Characteristics
Main Campus	Urban district within Tashkent City; mixed institutional and residential surroundings
Zakovat Campus	Urban district within Tashkent City
Lutfiy / Muqimiy Campuses	Urban district within Tashkent City (Chilanزار District)
Angren Campus	Urban setting within Angren City, a regional city in Tashkent Region
Orta Chirchiq Complex	Suburban/peri-urban recreational and ecological zone outside the dense city fabric

The academic campuses are situated in well-developed urban areas with convenient access to public transportation, residential districts, educational institutions, healthcare

facilities, and commercial services. This urban setting enables efficient mobility, shared public infrastructure, and close interaction with the surrounding community.

The Orta Chirchiq Recreation and Ecological Complex, located in Orta Chirchiq District of Tashkent Region, complements the university's academic infrastructure by providing a natural environment for outdoor recreation, ecological education, biodiversity conservation, and sustainability-related activities. Although it is not used as a regular teaching campus, it represents an important component of the university's Green Campus Strategy.

Additional University-Owned Recreation and Ecological Facility

Facility	Location	Setting Classification
Orta Chirchiq Recreation and Ecological Complex	Orta Chirchiq District, Tashkent Region	Recreational and Ecological Area

The Orta Chirchiq Recreation and Ecological Complex contains landscaped gardens, tree-covered areas, recreational zones, and ecological spaces that support biodiversity conservation, environmental awareness programmes, staff and student recreation, and sustainable landscape management.

Campus Utilization

To optimize infrastructure usage and reduce congestion, UzSWLU applies a multi-shift academic schedule.

- **Morning shift:** Primarily first-, second-, and third-year students (08:30–13:00).
- **Afternoon shift:** Senior undergraduate students (13:20–18:20).
- **Evening programmes:** Begin at 18:00.
- **Teaching activities:** Conducted five days per week.

This scheduling model distributes student attendance throughout the day, improves classroom utilization, reduces peak-hour traffic, and increases the efficiency of campus infrastructure.
