3. Waste (WS)

[3.2–3.4] WS2 Programme to Reduce the Use of Paper and Plastic on Campus

This indicator covers the total volume of paper and plastic waste produced this year and last year (3.2, 3.3), and the university's formal programmes to reduce paper and plastic use (3.4).

Paper and Plastic Waste Generation

Reporting Year	Campus Population	Paper (t)	Plastic (t)	Total (t)
2025 (last year, 3.3)	19,242	102	41	143
2026 (this year, 3.2)	19,562	86	31	117
Change		–16 t	–10 t	–26 t (–18.2%)

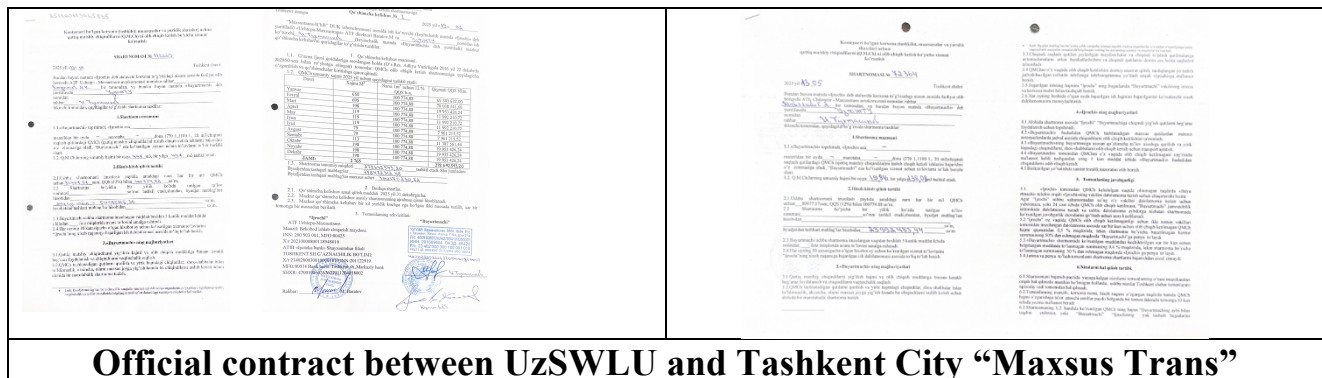

Annual waste generation was estimated using the university's total campus population together with average waste-generation coefficients (4.3 kg/person/year for paper; 1.6 kg/person/year for plastic), verified against collection records from the Tashkent City “Maxsus Trans” Waste Management Company. The 18.2% year-on-year reduction reflects improved resource efficiency during the 2026 reporting period.
