3.9 (WS.9) Total Volume of Inorganic Waste Produced This Year

During the **2026 reporting period**, Uzbekistan State World Languages University (UzSWLU) generated approximately **74 metric tons** of inorganic waste across all university campuses.

The reported volume includes recyclable and non-biodegradable materials generated through academic, administrative, residential, and campus support activities. The data were compiled through the university's environmental monitoring system and verified using monthly waste collection records maintained by the Campus Management Division in cooperation with the Tashkent City "**Maxsus Trans**" Waste Management Company.

Composition of Inorganic Waste

Waste Category	Annual Volume
Plastic	28 metric tons
Glass	15 metric tons
Metal	10 metric tons
Electronic waste (e-waste)	11 metric tons
Mixed non-recyclable waste	10 metric tons
Total Inorganic Waste	74 metric tons

Year-on-Year Comparison

Reporting Year	Total Inorganic Waste
2025	85 metric tons
2026	74 metric tons

The comparison indicates a reduction of **11 metric tons** (approximately **13%**) in inorganic waste generation compared with the previous reporting period. The decrease reflects the university's continued efforts to improve resource efficiency, reduce material consumption, and strengthen waste segregation practices across all campuses.

Monitoring and Verification

Inorganic waste generation is monitored throughout the year by the Department of Natural Sciences and the Campus Management Division. Annual waste volumes are verified using institutional environmental monitoring records together with monthly waste collection reports provided by the Tashkent City "**Maxsus Trans**" Waste Management Company.

Summary Table

Indicator	2026
Total Inorganic Waste Generated	74 metric tons
Reporting Period	2026
