3.10 (WS.10) Total Volume of Inorganic Waste Produced Last Year

Total Volume of Inorganic Waste Produced Last Year

During the **2025 reporting period**, Uzbekistan State World Languages University (UzSWLU) generated approximately **85 metric tons** of inorganic waste across all university campuses. The reported volume includes non-biodegradable materials generated through academic, administrative, residential, and campus support activities.

Annual waste generation data were compiled through the university's environmental monitoring system and verified using monthly waste collection records maintained by the Campus Management Division in cooperation with the Tashkent City "**Maxsus Trans**" **Waste Management Company**.

Composition of Inorganic Waste

Waste Category	Annual Volume
Plastic	32 metric tons
Glass	17 metric tons
Metal	12 metric tons
Electronic waste (e-waste)	12 metric tons
Mixed non-recyclable waste	12 metric tons
Total Inorganic Waste	85 metric tons

Waste Monitoring and Management

Inorganic waste is collected separately from academic buildings, administrative offices, student dormitories, cafeterias, and public areas. Waste quantities are recorded monthly by the Campus Management Division and verified through collection records prepared in cooperation with the Tashkent City "**Maxsus Trans**" **Waste Management Company**.

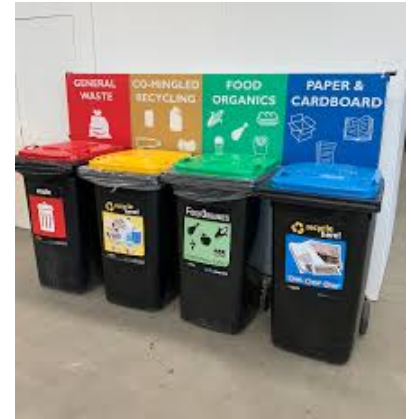

The monitoring system supports annual reporting by identifying the quantity and composition of inorganic waste generated across university campuses and provides the basis for planning waste reduction and recycling activities.

Summary Table

Indicator	2025
Total Inorganic Waste Generated	85 metric tons
Reporting Period	2025
