[3] Waste (WS)

3.16 (WS.16) Toxic Waste Treatment

Uzbekistan State World Languages University (UzSWLU) implements a comprehensive hazardous waste management system to ensure that all toxic waste generated on campus is handled in an environmentally responsible manner.

During the **2026 reporting period**, approximately **2.18 metric tons** of toxic waste were generated, and **100%** of this waste was collected, stored, transferred, and treated through authorized hazardous waste management procedures.

Hazardous waste is segregated at the source, temporarily stored in designated secure locations, and managed in accordance with institutional environmental procedures and applicable national regulations. Treatment activities are monitored by the Campus Management Division and recorded through the UzSWLU Green Data Portal.

As a result, the university achieved a **100% toxic waste treatment rate**, corresponding to the **"Extensive (>85% treated)"** category under the UI GreenMetric assessment methodology.
