[6.14] ED.7 University Sustainability Programme(s) with International Collaboration

International collaboration is one of the strategic priorities of Uzbekistan State World Languages University (UzSWLU) and serves as an important platform for integrating sustainability into education, research, innovation, academic mobility, and community engagement. Through long-term partnerships with foreign universities and international organizations, UzSWLU implements joint sustainability programmes that promote knowledge exchange, interdisciplinary research, global citizenship, and achievement of the Sustainable Development Goals (SDGs).

The University's international sustainability programmes include joint research projects, academic mobility, staff development, online learning initiatives, sustainability-focused conferences, internships, and collaborative educational activities. These programmes strengthen the University's internationalization strategy while supporting sustainability across teaching, research, and institutional development.

1. Confirmed Data

Indicator	Value
International sustainability programmes implemented annually	12 Programmes

2. International Sustainability Programmes (2025–2026)

No.	Programme	International Partner	Programme Type
1	Eco-Linguistics Research Collaboration	BINUS University (Indonesia)	Joint Research
2	Sustainable Translation Studies Project	Beijing Foreign Studies University (China)	Joint Research & Curriculum Development
3	Green Campus Knowledge Exchange	Assumption University (Thailand)	Staff Mobility & Best Practice Exchange
4	SDG Online Lecture Series	Istanbul Aydın University (Türkiye)	Joint Online Teaching
5	Student Sustainability Exchange Programme	BINUS University (Indonesia)	Student Mobility
6	International SDG Webinar Series	International Partner Universities	Online Academic Programme

7	Climate Communication Workshop	Beijing Foreign Studies University	Academic Training
8	Sustainability Research Seminar	Assumption University	Joint Scientific Seminar
9	Intercultural Sustainability Forum	International Partner Universities	International Forum
10	Green Translation Research Project	International Research Consortium	Collaborative Research
11	Faculty Sustainability Mobility Programme	Partner Universities	Academic Staff Exchange
12	International Sustainability Internship Programme	International Partner Institutions	Student Internship

3. Programme Development Trend

Academic Year	International Sustainability Programmes	Annual Growth
2023–2024	9	Baseline
2024–2025	11	+22.2%
2025–2026	12	+9.1%

The steady increase in international sustainability programmes reflects the University's growing commitment to integrating sustainability into international education, research, and academic cooperation.

4. Main Areas of International Collaboration

The University's sustainability partnerships support activities in several strategic areas:

- Eco-linguistics and environmental communication;
- Sustainable translation studies;
- Climate change communication;
- Green campus development and environmental management;
- Sustainable Development Goals (SDGs);
- Academic mobility and international internships;
- Joint scientific research and publications;
- Capacity building for faculty members and students.

5. Programme Management and Monitoring

International sustainability programmes are coordinated by the **International Relations Department** in cooperation with the **Research Affairs Office**, academic faculties, and partner institutions.

Each programme is implemented under formal cooperation agreements and monitored through annual partnership reports, mobility statistics, research outputs, joint events, and institutional performance indicators. Programme outcomes are incorporated into the University's internationalization and sustainability reporting processes.

6. Institutional Impact

The implementation of international sustainability programmes has contributed to:

- strengthening international research collaboration on sustainability-related topics;
- expanding student and academic staff participation in international mobility programmes;
- increasing opportunities for joint research, publications, and curriculum development;
- promoting intercultural dialogue and global citizenship education;
- enhancing institutional capacity in sustainability teaching and research;
- supporting knowledge exchange and dissemination of international best practices in sustainable development.

7. Contribution to the Sustainable Development Goals (SDGs)

SDG	Contribution
SDG 4	International cooperation supporting quality education and academic exchange
SDG 9	Joint research, innovation, and knowledge transfer
SDG 13	Climate communication and sustainability research collaboration
SDG 17	International partnerships and global academic cooperation

Conclusion

International sustainability collaboration has become an integral component of UzSWLU's institutional development strategy. Through **12 active international sustainability programmes**, the University strengthens research collaboration, academic mobility, curriculum development, and intercultural learning while contributing to the implementation of the Sustainable Development Goals.

These programmes demonstrate UzSWLU's commitment to embedding sustainability within international partnerships and expanding global cooperation in education, research, and innovation.
