[6.15] ED.8 Community Service Projects Related to Sustainability Involving Students

Community service projects connect UzSWLU's academic mission directly to the needs of the surrounding society, giving students hands-on experience in applying sustainability principles beyond the classroom. As a world languages university, UzSWLU's community service model is distinctive: it combines environmental and social sustainability action with the university's core linguistic and translation expertise, allowing students to serve their communities through language-based outreach as much as through direct environmental action.

Representative University Projects

No.	Project Title	Description	SDGs
1	EcoLingua Community Campaign	Students organize environmental awareness campaigns in local communities through clean-up events, tree planting, waste segregation demonstrations, and multilingual sustainability education to promote environmentally responsible behavior.	11, 13, 15, 17
2	Eco-English for Schools	Volunteer students deliver interactive English-language lessons on climate change, biodiversity, recycling, and sustainable lifestyles for secondary school students, combining language learning with environmental education.	4, 13, 17
3	Green Translation Volunteers	Translation students translate sustainability-related publications, environmental guidelines, educational materials, and SDG resources into multiple	4, 13, 16, 17

No.	Project Title	Description	SDGs
		languages for schools, NGOs, and local communities.	
4	Sustainable Schools Partnership	The university partners with local schools to implement year-round sustainability activities, including eco-clubs, environmental competitions, workshops, and student mentoring programs.	4, 11, 13, 17
5	Green Campus Ambassador Program	Student ambassadors conduct sustainability outreach activities at schools, universities, and public institutions by sharing best practices in green campus development, climate action, and sustainable lifestyles.	4, 13, 17
6	Multilingual SDG Awareness Campaign	Students prepare and distribute sustainability awareness materials in Uzbek, English, Russian, Chinese, Korean, German, French, and other languages to promote the Sustainable Development Goals among diverse communities.	4, 10, 13, 17
7	Green Language Festival	An annual public festival combining foreign languages with environmental education through debates, exhibitions, quizzes, cultural performances, and sustainability-themed competitions involving local communities.	4, 11, 13, 17
8	Eco Dictionary Project	Students develop multilingual glossaries and digital dictionaries of environmental terminology to improve sustainability literacy among students, teachers, researchers, and the general public.	4, 13, 17

No.	Project Title	Description	SDGs
9	International SDG Youth Forum	The university hosts an international youth forum where students collaborate with local communities, NGOs, and international partners to discuss innovative solutions addressing environmental and social sustainability challenges.	4, 11, 13, 16, 17
10	Green Office Consulting Program	Student teams provide free sustainability assessments and recommendations to schools, government agencies, and community organizations on waste reduction, energy efficiency, digitalization, and environmentally responsible office practices.	9, 11, 12, 13, 17

These 10 flagship programmes, together with numerous smaller school- and community-level initiatives run throughout the academic year, make up the university's total of 151 sustainability-related community service projects. The consistent presence of SDG 4 (Quality Education), SDG 13 (Climate Action), and SDG 17 (Partnerships for the Goals) across nearly all projects reflects UzSWLU's distinctive approach: using its core strength in languages, translation, and communication as the primary vehicle for community-facing sustainability action.

STUDENTS IN ACTION FOR A GREENER FUTURE

EcoLingua Community Projects for Sustainability

1 EcoLingua Community Campaign

Students organize environmental awareness campaigns in local communities through clean-up events, tree planting, waste segregation demonstrations, and multilingual sustainability education to promote environmentally responsible behavior.

Main SDGs Supported:

2 Eco-English for Schools

Volunteer students deliver interactive English-language lessons on climate change, biodiversity, recycling, and sustainable lifestyles for secondary school students, combining language learning with environmental education.

Main SDGs Supported:

3 Green Translation Volunteers

Translation students translate sustainability-related publications, environmental guidelines, educational materials, and SDG resources into multiple languages for schools, NGOs, and local communities.

Main SDGs Supported:

4 Sustainable Schools Partnership

The university partners with local schools to implement year-round sustainability activities, including eco-clubs, environmental competitions, workshops, and student mentoring programs.

Main SDGs Supported:

5 Green Campus Ambassador Program

Student ambassadors conduct sustainability outreach activities at schools, universities, and public institutions by sharing best practices in green campus development, climate action, and sustainable lifestyles.

Main SDGs Supported:

6 Multilingual SDG Awareness Campaign

Students prepare and distribute sustainability awareness materials in Uzbek, English, Russian, Chinese, Korean, German, French, and other languages to promote the Sustainable Development Goals among diverse communities.

Main SDGs Supported:

7 Green Language Festival

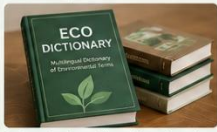

An annual public festival combining foreign languages with environmental education through debates, exhibitions, quizzes, cultural performances, and sustainability-themed competitions involving local communities.

Main SDGs Supported:

8 Eco Dictionary Project

Students develop multilingual glossaries and digital dictionaries of environmental terminology to improve sustainability literacy among students, teachers, researchers, and the general public.

Main SDGs Supported:

9 International SDG Youth Forum

The university hosts an international youth forum where students collaborate with local communities, NGOs, and international partners to discuss innovative solutions addressing environmental and social sustainability challenges.

Main SDGs Supported:

10 Green Office Consulting Program

Student teams provide free sustainability assessments and recommendations to schools, government agencies, and community organizations on waste reduction, energy efficiency, digitalization, and environmentally responsible office practices.

Main SDGs Supported:

Small actions. Big impact. Together for a sustainable tomorrow!
