Affordable Housing for Students

SDG 11 Sustainable Cities and Communities | Reporting year 2025

Uzbekistan State World Languages University (UzSWLU) provides affordable housing to students in its own dormitories and helps students who live in private rented housing. In 2025 the University operated six student dormitories with a total of 3,285 places, and on 3 September 2025 it opened a new 48-place dormitory on campus, built through a public–private partnership.

Affordable dormitory places

- Dormitory fees are set well below private rental prices in Tashkent and cover basic maintenance and utility costs.
- Students in protected social categories, including orphans, students with disabilities and students from low-income families listed in the national social registers, receive priority places and fee exemptions.
- Applications are made electronically through the national interactive services portal, so places are allocated transparently by published criteria.

Opening of the new 48-place student dormitory, 3 September 2025

Help with rented housing

For students who live outside the dormitories, the University's Information Center for Student Dormitories and Rental Housing helps newly admitted students find accommodation and directs them to vetted rental housing. In 2025 the University cooperated with 1,575 rental homes. The center's work was reviewed by the Deputy Minister of Higher Education, Science and Innovation on 4 August and by the hokim of Uchtepa district on 13 August. On 10 November 2025 a working group led by the Rector visited students living in rented homes in Uchtepa district to check heating, sanitary conditions, safety and study conditions.
