UZBEKISTAN STATE WORLD LANGUAGES UNIVERSITY

Prioritizing Pedestrian Access on Campus

SDG 11 Sustainable Cities and Communities | Reporting year 2025

Uzbekistan State World Languages University (UzSWLU) gives pedestrians priority on its campuses. Central academic areas are closed to private cars, and paths connect academic buildings, the library, sports facilities and dormitories without crossing vehicle routes.

Measures

- **Car-free zones:** central courtyards and avenues are reserved for pedestrians, cyclists and the campus electric shuttle buses.
- **Car-Free Thursday:** every Thursday private cars are not admitted to academic zones.
- **Vehicle permits:** a QR-based permit system limits vehicle entry to authorized, service and emergency vehicles.
- **Safe and accessible paths:** walkways are lit and shaded by trees; building entrances and path crossings have ramps and dropped curbs, and tactile paving guides visually impaired students and visitors.

The Department of Administrative Affairs and campus security keep footpaths clear and safe, and the arrangements support the University's targets for sustainable commuting and for a car-free campus.
