UZBEKISTAN STATE WORLD LANGUAGES UNIVERSITY

Publication of a Sustainability Report

SDG 12 Responsible Consumption and Production | Reporting year 2025

Uzbekistan State World Languages University (UzSWLU) publishes a sustainability report on its website. The UzSWLU Sustainability Report 2025 is a standalone report that sets out the University's progress against each of the 17 Sustainable Development Goals in 2025, with the policies, programs, figures and events behind them.

Contents of the report

Section	Content
Introduction	The University, its sustainability governance and the policies that guide its work
SDG 1 – SDG 17	One chapter per goal summarizing progress in 2025, key figures and highlights
Further information	Links to the University's policies and to evidence published on its website

Key figures in the report include the University's 2025 greenhouse gas inventory of 7,910.25 tCO2e, solar electricity generation of 1,818,133 kWh, and its net-zero commitment for 2050. Progress against each SDG is also published on the SDG pages of the University website.
