# Collaboration with NGOs on Climate Adaptation

*SDG 13 Climate Action | Reporting year 2025*

Uzbekistan State World Languages University (UzSWLU) works with non-governmental and civil society organizations on environmental protection and adaptation to a changing climate, through its Department of Ecology and Green Resources and its student volunteers.

## Ecological Movement of Uzbekistan

In the first quarter of 2025 UzSWLU and the Ecological Movement of Uzbekistan signed a memorandum of cooperation on improving state ecological expertise and environmental impact assessment, developing curricula, training specialists and introducing digital and innovative solutions in environmental protection. On 28 November 2025 the Department of Ecology and Green Resources held a dialogue with the Chairman of the Movement, Academician Boriy Alikhanov, and eco-active students on atmospheric air protection and constitutional environmental rights.

## Student eco-volunteers

The EKONUR eco-volunteers movement held the final stage of its "Eco Marathon" project at the University on 27–29 September 2025, in which participants cleaned the campus and built knowledge of environmental protection. Student eco-volunteers also take part in the monthly environmental campaigns in Guzar mahalla.

## Civic dialogue on water

On 12 December 2025 University ecologists contributed proposals on the effective use of rainwater, a key adaptation measure for water scarcity, at the Olam discussion club convened by the Ecological Party of Uzbekistan with civil society participants.
